WORK EXPERIENCE

Frontend Development for MEAGL.com - <https://www.meagl.com>

July 2018

- Created the dark mode and other parts of the front-end for MEAGL which is a content uploading website where content creators can earn money. The Dark Mode was created by creating completely new style-sheets for the website, app as well as the mobile website.
 - Technologies: HTML, CSS

PROJECTS

Online Application for Women Services- [Github Repository](#)

August - November 2018

- Providing an online platform for women in rural India to apply to useful services provided for them by the Government of India. There is no official website where these services can be applied for and hence this website has been created.
 - Technologies used: PHP, MySQL, HTML, CSS, JavaScript, etc.

M-Indicator

September 2015

- Recreated the existing application M-Indicator which is a transportation related mobile application that primarily provides information about public transportation in the cities of Mumbai and Pune.
 - Technologies: Visual Studio, MySQL
